

2023 WMA RULEBOOK APPENDIX B

SCORING OF WMA COMBINED EVENTS

AGE GRADING TABLES AND PARAMETERS

2023 EDITION

The scoring of Master's Combined Events competitions is as follows. In all events the scoring procedure is exactly like normal IAAF Combined Events scoring with the addition of one additional step. That additional step is that the actual performance in each event is multiplied by the appropriate Age Factor to arrive at an Age Factored Performance. This Age Factored Performance (AFP) is then looked up in the current IAAF Combined Events Scoring Tables in the normal manner.

Age Factors: The Age Factors to be used for each gender and age group are listed below. Use the full, four place number for Age Factoring. Round the result of the multiplication as shown below. **Note:** The Age Factors automatically correct for the reduced WMA implements and distances. So a M65-69 man throwing a 5 kilogram shot can be looked up in the standard IAAF scoring table for the 7.26 kilogram shot put, after multiplying the actual performance by the Age Factor, because the Age Factor takes into account the fact that he is throwing a smaller shot. The same is true with a W60-64 woman running 80 meter hurdles, .762 meter high. The Age Factor automatically produces an Age Factored Performance that can be looked up in the standard IAAF 100 meter, .840 high, women's hurdle table.

Rounding: The general rule is that rounding is done so as to never give artificial aid to the performer. So, after multiplying the Actual Performance by the Age Factor, be sure to round all running events up to the higher one hundredth of a second and round all throwing and jumping events down to the shorter centimetre. Remember: Run up, Jump and Throw down.

Example:

M50-54 man runs a 13.12 second Actual Performance in the 100 meter event.

13.12 times .9031 Age Factor equals an Age Factored Performance of 11.848672

11.848672 rounded up equals 11.85 to look up in the standard IAAF Combined Events Scoring Table.

11.85 is awarded 681 points.

Example:

W35-39 woman jumps a 1.47 meter Actual Performance in the High Jump.

1.47 times the 1.0205 Age Factor equals a 1.500135 Age Factored Performance.

1.500135 rounded down equals 1.50 to look up in the standard IAAF Combined Events Scoring Table.

1.50 is awarded 621 points.

Scoring Tables: The scoring tables to use are the current edition of the "IAAF Scoring Tables for Combined Events". (See below for the formulas that describe the scoring in the tables) If a performance is being scored that does not appear in the tables, be sure to move to the performance that results in less points being scored, not more.

Example:

Looking up a male 66.06 second 400 meter, the 66.09 score must be used, not the 66.05 score.

66.06 is closer to 66.05 than it is to 66.09 but is faster than was actually ran.

66.06 therefore is awarded 230 points.

Example:

Looking up a female 12.35 meter shot put, the 12.34 score must be used, not the 12.36 score.

12.35 is equally close to 12.36, but 12.36 is further than was actually thrown.

12.34 therefore is awarded 684 points.

Hand Timing: If Combined Events running events, from 400 meters down (including hurdles), are hand timed, the times must be corrected before multiplying by the appropriate Age Factor. Then the score must be looked up in the fully automatic portion of the scoring tables (Note: The hand timed portions of the scoring tables are never used in Masters Combined Events scoring).

Hand Timing Corrections:

The IAAF corrections to apply are:

50 through 300 meters	add 0.24 seconds to the hand time
400 meters	add 0.14 seconds to the hand time
Longer than 400 meters	add nothing
(use auto or hand time as is)	

IAAF Combined Events Scoring Formulas:

The official IAAF scoring tables, as published in the "IAAF Scoring Tables for Combined Events", are generated by the following mathematical formulas. The results of the formulas must be truncated to the integer and not rounded up. So, a formula result of 674.999 is 674 points, not 675, and 872.001 is 872. The actual points formulas are as follows, with the

three constants listed below for all of the Combined Events. Note that performances must be expressed in seconds, centimetres, or meters, as indicated.

For a given performance, the point score (P) is calculated using one of the following equations:

Track Events: $P = a * (b - T)^{**c}$ (where T is Time in seconds)

Jumps: $P = a * (M-b)^{**c}$ (where M is Measurement in centimetres)

Throws: $P = a * (D-b)^{**c}$ (where D is Distance in meters)

* means multiplied by and ** means raised to the power of
a, b, and c are parameters whose values are listed below.
